

tesseract\_process\_managers  
/include/tesseract\_process  
\_managers/task\_generators  
/has\_seed\_task\_generator.h

```
graph BT; A["tesseract_process_managers  
/src/core/default_process  
_planners.cpp"] --> C["tesseract_process_managers  
/include/tesseract_process  
_managers/task_generators  
/has_seed_task_generator.h"]; B["tesseract_process_managers  
/src/task_generators/has  
_seed_task_generator.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a header file box (shaded gray) containing the path `tesseract_process_managers/include/tesseract_process_managers/task_generators/has_seed_task_generator.h`. Below it are two source file boxes. The left box contains `tesseract_process_managers/src/core/default_process_planners.cpp` and the right box contains `tesseract_process_managers/src/task_generators/has_seed_task_generator.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

tesseract\_process\_managers  
/src/core/default\_process  
\_planners.cpp
