

`std::unique_ptr< TaskGenerator >`

`std::vector< int >`

process

edges

`tesseract_planning
::GraphTaskflow::Node`

```
graph BT; Node[tesseract_planning::GraphTaskflow::Node] -.->|process| UniquePtr[std::unique_ptr< TaskGenerator >]; Node -.->|edges| Vector[std::vector< int >];
```

The diagram illustrates the structure of the `tesseract_planning::GraphTaskflow::Node` class. It is represented by a grey rectangular box at the bottom. Two dashed purple arrows originate from the top of this box. The left arrow, labeled 'process', points to a white rectangular box containing the code `std::unique_ptr< TaskGenerator >`. The right arrow, labeled 'edges', points to another white rectangular box containing the code `std::vector< int >`.
