```
graph BT; A["tesseract_planning::RRTstarConfigurator"] --> B["tesseract_planning::OMPLPlannerConfigurator"]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a box with a light gray background representing the base class, and at the top is a white box representing the derived class. A blue arrow points from the base class box to the derived class box, indicating that the derived class inherits from the base class.
