

tesseract\_motion\_planners  
/descartes/include/tesseract  
\_motion\_planners/descartes  
/serialize.h

```
graph BT; A["tesseract_motion_planners  
/descartes/src/serialize.cpp"] --> C["tesseract_motion_planners  
/descartes/include/tesseract  
_motion_planners/descartes  
/serialize.h"]; B["tesseract_motion_planners  
/test/serialize_test.cpp"] --> C;
```

The diagram illustrates a dependency relationship in a C++ project. At the top, a grey-shaded box represents the header file `tesseract_motion_planners/descartes/include/tesseract_motion_planners/descartes/serialize.h`. Below it, two white boxes represent source files. The left box, `tesseract_motion_planners/descartes/src/serialize.cpp`, and the right box, `tesseract_motion_planners/test/serialize_test.cpp`, both have blue arrows pointing upwards to the header file box, indicating that both source files include or depend on this header.

tesseract\_motion\_planners  
/descartes/src/serialize.cpp
