

tesseract\_planning  
::OMPLPlannerConfigurator

```
graph BT; A[tesseract_planning::RRTstarConfigurator] --> B[tesseract_planning::OMPLPlannerConfigurator];
```

A diagram illustrating a class hierarchy. At the bottom is a gray-shaded box containing the text 'tesseract\_planning::RRTstarConfigurator'. A blue arrow points vertically upwards from this box to a white box above it. The white box contains the text 'tesseract\_planning::OMPLPlannerConfigurator'. This represents that RRTstarConfigurator inherits from or specializes OMPLPlannerConfigurator.
