The diagram illustrates a header file dependency. At the top is a grey box containing the header file path: `tesseract_process_managers/examples/raster_example_program.h`. Below it are two white boxes. The left box contains the source file path: `tesseract_process_managers/examples/raster_manager_example.cpp`. The right box contains the source file path: `tesseract_process_managers/test/tesseract_process_managers_unit.cpp`. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.
