

tesseract\_command\_language  
/include/tesseract\_command  
\_language/deserialize.h

```
graph BT; A["tesseract_command_language  
/src/deserialize.cpp"] --> C["tesseract_command_language  
/include/tesseract_command  
_language/deserialize.h"]; B["tesseract_command_language  
/test/serialize_test.cpp"] --> C;
```

The diagram illustrates a header file dependency. At the top, a grey-shaded box contains the header file path: `tesseract_command_language/include/tesseract_command_language/deserialize.h`. Below this, two white boxes represent source files. The left box, `tesseract_command_language/src/deserialize.cpp`, and the right box, `tesseract_command_language/test/serialize_test.cpp`, both have blue arrows pointing upwards to the header file box, indicating that both source files include this header.

tesseract\_command\_language  
/src/deserialize.cpp
