

tesseract_process_managers
/examples/raster_example
_program.h

```
graph BT; A["tesseract_process_managers/examples/raster_manager_example.cpp"] --> C["tesseract_process_managers/examples/raster_example_program.h"]; B["tesseract_process_managers/test/tesseract_process_managers_unit.cpp"] --> C;
```

The diagram illustrates a header file inclusion relationship. At the top is a grey rectangular box containing the header file path: `tesseract_process_managers/examples/raster_example_program.h`. Below this box are two white rectangular boxes. The box on the left contains the source file path: `tesseract_process_managers/examples/raster_manager_example.cpp`. The box on the right contains the source file path: `tesseract_process_managers/test/tesseract_process_managers_unit.cpp`. Two blue arrows point from the top of each bottom box to the bottom of the top box, indicating that both source files include the header file.

tesseract_process_managers
/examples/raster_manager
_example.cpp
