

tesseract_planning
::TaskflowGenerator

```
graph BT; A[tesseract_planning::RasterGlobalTaskflow] --> B[tesseract_planning::TaskflowGenerator];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray box representing the base class, `tesseract_planning::RasterGlobalTaskflow`. A blue arrow points upwards from this box to a white box at the top, which represents the derived class, `tesseract_planning::TaskflowGenerator`. Both boxes have a black border and contain their respective class names in two lines.
