A diagram illustrating the relationship between source files and a header file. At the top is a grey box containing the header file path: `tesseract_motion_planners /descartes/include/tesseract _motion_planners/descartes /deserialize.h`. Below it are two white boxes. The left box contains the source file path: `tesseract_motion_planners /descartes/src/deserialize.cpp`. The right box contains the test file path: `tesseract_motion_planners /test/serialize_test.cpp`. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.
