

tesseract\_planning  
::TaskGenerator

```
graph BT; A[tesseract_planning::FixStateBoundsTaskGenerator] --> B[tesseract_planning::TaskGenerator];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray box representing the base class, `tesseract_planning::FixStateBoundsTaskGenerator`. A blue arrow points upwards from this box to a white box at the top, which represents the derived class, `tesseract_planning::TaskGenerator`. This indicates that `FixStateBoundsTaskGenerator` inherits from `TaskGenerator`.
