

tesseract_command_language
/include/tesseract_command
_language/serialize.h

```
graph BT; A["tesseract_command_language  
/src/serialize.cpp"] --> B["tesseract_command_language  
/include/tesseract_command  
_language/serialize.h"]; C["tesseract_command_language  
/test/serialize_test.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a header file box labeled 'tesseract_command_language /include/tesseract_command _language/serialize.h'. Below it are two source file boxes. The left box is labeled 'tesseract_command_language /src/serialize.cpp' and the right box is labeled 'tesseract_command_language /test/serialize_test.cpp'. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
